Now both men and women can put a name to
their pain with BarCode, a sassy glossary of
words, definitions, and etymologies that
perfectly articulates the bliss--and the
blunders--of modern dating. This is the
ultimate "she said/he said" for anyone who
ever regretted saying anything. The Agony
and the Ex-to-See\the ag-o-ne and the x-ta-
ce\n.: Cosmic law that states your most
embarrassing moment will be witnessed by
your ex. Kisstake\kis-tak\n.: The act of
being caught swapping saliva with someone
other than your girlfriend. Example: With
his girlfriend out of town, Alan thinks he's
safe to indulge in some illicit tongue-tango

with this sassy little thing he's just met in a hole-in-the-wall club. Big kisstake! Message in a Bottle\mes-ij n a bot-l\n.: The late-night, drunken message you left on his machine. From the happily married who want to reminisce about their swinging single days, to the devastatingly single who want to be married, to the involved but not committed, BarCode is destined to become your new best friend. The Code of Federal Regulations is a codification of the general and permanent rules published in the Federal Register by the Executive departments and agencies of the United States Federal Government. There is always a man around the corner. Church trustee James Black should know--he's usually that man, carrying on adulterous affairs and sleeping with one conquest after

another. But when he suddenly finds himself truly in love, the other women in his church have a thing or two to say about it--including his daughter, Jamie. Jamie has every intention of dismantling the relationship--until she discovers a mystery woman has been secretly calling her lover, Louis. Meanwhile, James's son, Darnel, spirals out of control after he catches his fiancée cheating. James knows he's to blame for the turmoil that surrounds him and his loved ones. Now he'll have to find a way to bring peace to their lives. But he can only do it by facing some hard truths about himself and changing his scandalous ways. "A charming tale. . ." --Essence® "Twisty and entertaining. . .gives fans what they want. . ." --Publishers Weekly "This family's page-turning drama keeps readers in suspense until the very last page." --Upscale Magazine

This booklet contains the operating instructions for the BT answer phone Response 55. An analysis of the ways that software creates new spatialities in everyday life, from supermarket checkout lines to airline flight paths. After little more than half a century since its initial development, computer code is extensively and intimately woven into the fabric of our everyday lives. From the digital alarm clock that wakes us to the air traffic control system that guides our plane in for a landing, software is shaping our world: it creates new ways of undertaking tasks, speeds up and automates existing practices, transforms social and economic relations, and offers new forms of cultural activity, personal empowerment, and modes of play. In *Code/Space*, Rob Kitchin and Martin Dodge examine software from a spatial perspective, analyzing the dyadic relationship of software and space. The production of space, they argue, is increasingly dependent on code, and code is written to produce space. Examples of code/space include airport check-in areas, networked offices, and cafés that

are transformed into workspaces by laptops and wireless access. Kitchin and Dodge argue that software, through its ability to do work in the world, transduces space. Then Kitchin and Dodge develop a set of conceptual tools for identifying and understanding the interrelationship of software, space, and everyday life, and illustrate their arguments with rich empirical material. And, finally, they issue a manifesto, calling for critical scholarship into the production and workings of code rather than simply the technologies it enables—a new kind of social science focused on explaining the social, economic, and spatial contours of software. The objectives of this project were (1) to measure consumer satisfaction with tap water quality, (2) to investigate demographic trends in consumer satisfaction and consumption of tap water alternatives, (3) to identify the factors that cause consumers to purchase and use bottled water and POU/POEs, and (4) to develop a list of recommendations for water utilities that can improve consumer satisfaction and help bridge gaps between perception and reality. The following are highlights from the research project: Consumption rate of tap

water alternatives is highly dependent on geographic location (20% usage rate in the Midwest vs. 80% on the West Coast). Tap water drinkers are more satisfied (20% on average) than tap water alternative drinkers concerning various aspects of tap water (e.g., overall quality, taste, appearance, smell, safety, healthiness). Tap water quality had limited influence on consumer satisfaction. The highest level of correlation (between satisfaction and water quality) was found to have an R^2 - value of 34%-64% for hardness and total dissolved solids. Safety was the primary motivator for filtered water drinkers. Bottled water drinkers were divided between taste, safety, and healthiness.
