Graphics is one of the important tools in engineering analysis and design. However, plotting routines that generate output on high quality laser printers normally come in graphics packages, which tend to be expensive and system dependent. These factors become important for small computer systems or desktop computers, especially when only some form of a simple plotting routine is sufficient. With the Postscript language becoming popular, there are more and more Postscript laser printers now available. Simple, versatile, low cost plotting routines that can generate output on high quality laser printers are needed and standard FORTRAN language plotting routines using output in Postscript language seems logical. The purpose here is to explain two simple FORTRAN plotting routines that generate output in Postscript language. Nguyen, T. X. Unspecified Center... This book constitutes the refereed conference proceedings of the 10th International Conference on Advances in Computer Entertainment, ACE 2013, held in Boekelo, The Netherlands, in November 2013. The 19 full paper and 16 short papers presented together 42 extended abstracts were carefully reviewed and selected from a total of 133 submissions in all categories. The papers cover topics across a wide spectrum of disciplines including new devices; evaluation and user studies; games as interface to serious applications; creating immersion; interfaces; new experiences; procedural approaches and AI; and theory. Focusing on all areas related to interactive entertainment they aim at stimulating discussion in the development of new and compelling entertainment computing and interactive art concepts and applications. Understanding Criminal Networks is a short methodological primer for those interested in studying illicit, deviant, covert, or criminal networks using social network analysis (SNA). Accessibly written by Gisela Bichler, a leading expert in SNA for dark networks, the book is chock-full of graphics, checklists, software tips, step-by-step guidance, and straightforward advice. Covering all the essentials, each chapter highlights three themes: the theoretical basis of networked criminology, methodological issues and useful analytic tools, and producing professional analysis. Unlike any other book on the market, the book combines conceptual and empirical work with advice on designing networking studies, collecting data, and analysis. Relevant, practical, theoretical, and methodologically innovative, Understanding Criminal Networks promises to jumpstart readers' understanding of how to cross over from conventional investigations of crime to the study of criminal networks. Various stories, articles, and postings on varied web sites over the last two decades... the best ten percent. Since the launch of the original two-seater City Coupe in 1999, the SMART marque has achieved wide success throughout Europe. Since then, this model - now sold as the ForTwo - has become a popular sight in every major European city and urban region, particularly in the UK. The SMART is an individual's car, and the availability of a vast range of funky panel designs and accessories enables SMART drivers to stand out from the crowd. Here is a fascinating insight into the design and evolution of the SMART, as well as an essential guide to ownership. Big flavor made easy for smaller households It's time to join the multi-cooker fan club! Large families and party crowds are not the only ones who can enjoy the easy, economical, flavorful benefits of these miraculous appliances. Dinner for Two in an Instant gives you 100 tasty recipes designed for duos and made simple with your multi-cooker. From satisfying soups and stews to creamy pasta dinners to tender, juicy meats, you'll find just what you need for a delicious variety of main meals that fit your dinner table, including: • Tomato Florentine Tortellini Soup • Louisiana Jambalaya • Old-Fashioned Beef Stew • Shredded Chicken Tacos • Teriyaki Chicken • Turkey-Stuffed Peppers • Classic Shepherd's Pie • Spicy Italian Meatloaf • Apple Cider BBQ Brisket • Beef Manicotti • Vegetable Lasagna • Buffalo Chicken Macaroni and Cheese • Cheesy Broccoli Risotto Forget the frozen dinners and takeout, and never get stuck with leftovers you don't want. With Ellas Sanders's Dinner for Two in an Instant, you'll enjoy amazingly fresh, homemade dinner recipes for two in no time with no waste! More than 100,000 entrepreneurs rely on this book. The National Science Foundation pays hundreds of startup teams each year to follow the process outlined in the book, and it's taught at Stanford, Berkeley, Columbia and more than 100 other leading universities worldwide. Why? The Startup Owner's Manual guides you, step-by-step, as you put the Customer Development process to work. This method was created by renowned Silicon Valley startup expert Steve Blank, co-creator with Eric Ries of the "Lean Startup" movement and tested and refined by him for more than a decade. This 608-page how-to guide includes over 100 charts, graphs, and diagrams, plus 77 valuable checklists that guide you as you drive your company toward profitability. It will help you: Avoid the 9 deadly sins that destroy startups' chances for success Use the Customer Development method to bring your business idea to life Incorporate the Business Model Canvas as the organizing principle for startup hypotheses Identify your customers and determine how to "get, keep and grow" customers profitably Compute how you'll drive your startup to repeatable, scalable profits. The Startup Owners Manual was originally published by K&S Ranch Publishing Inc. and is now available from Wiley. The cover, design, and content are the same as the prior release and should not be considered a new or updated product. Sakurako Kawawa settles into her new apartment with her lazy, easygoing, and stunningly beautiful roommate, Kasumi Yamabuki, who lives life at her own pace. This four-panel-style comic follows the everyday life of these two high school roommates as they go to class together, tackle the mundane necessities of laundry and grocery shopping for two, and learn more about one another in a cute and heartwarming series of short stories. This is Volume 2 of the series. Modern highway engineering reflects an integrated view of a road system's entire lifecycle, including any potential environmental impacts, and seeks to develop a sustainable infrastructure through careful planning and active management. This trend is not limited to developed nations, but is recognized across the globe. Edited by renowned authority This book unifies and extends latent variable models, including multilevel or generalized linear mixed models, longitudinal or panel models, item response or factor models, latent class or finite mixture models, and structural equation models. Following a gentle introduction to latent variable modeling, the authors clearly explain and contrast a wi Focusing on basic aspects of future reusable space transportation systems and covering overall design, aerodynamics, thermodynamics, flight dynamics, propulsion, materials, and structures, this report presents some of the most recent results obtained in these disciplines. The authors are members of three Collaborative Research Centers in Aachen, Munich and Stuttgart concerned with hypersonic vehicles. A major part of the research presented here deals with experimental and numerical aerodynamic topics ranging from low speed to hypersonic flow past the external configuration and through inlet and nozzle. Mathematicians and engineers jointly worked on aspects of flight mechanics like trajectory optimization, stability, control and flying qualities. Structural research and development was predominantly coupled to the needs for high temperature resistant structures for space vehicles.
